Explanatory Note

1) This sector is governed by the Communications and Multimedia Act 1998 and it subsidiary rules and regulations.

2) Definitions as per Communications and Multimedia Act 1998

- Network facilities mean any element or combination of elements of physical infrastructure used principally for, or in connection with, the provision of network services, but does not include customer equipment. Network facilities provider means a person who is an owner of any network facilities.
- b. Network services means a service for carrying communications by means guided and/unguided electromagnetic radiation. Network service provider means a person who provides network services.
- c. Application service means a service provided by means of, but not solely by means of, one or more network services. Application service provider mans a person who provide an applications service.
- 3) Definitions as per Communications and Multimedia (Licensing) (Amendment) Regulations 2001
  - a. Network facilities provider class licensee means a person who is registered with the Commission to provide a network facility in accordance with the provisions of the Act and these Regulations.
